

EncapSulite®

# UltraGuard®

## SHATTER RESISTANT LED LIGHTING

EncapSulite shatter resistant lamps deliver superior protection against accidental lamp breakage. **UltraGuard Telfon™** shatter resistant lamps are available in T5 and T8 LED and suitable for incidental food contact in federally inspected food, meat and poultry plants. **UltraGuard** is the only coating that can resist powerful UV emissions and caustic cleaners while not yellowing and breaking apart. A perfect solution for Long-Life Fluorescent Lamps, EncapSulite shatter resistant coatings are UL recognized for safety and UL-EPH certified for environmental and public health.

### FEATURES
