EncapSulite Overview

Great Reasons to Buy from EncapSulite International

Since 1969, EncapSulite International has been in the safety lighting business. We specialize in the design, development, manufacturing and distribution of safety lighting products for industries worldwide. Our products will deliver the maximum return on your safety lighting investment. Our products are designed for industries as diverse as: Food Processing, Supermarkets, Restaurants, Clothing, Furniture, Retail Stores, Museum, Printing & Publishing, Pharmaceutical, Screen Printing, Hospital & Medical X-Ray, Industrial X-Ray, Trade Show & Exhibition, Semiconductor, Printed Circuit & Wafer Manufacturing, Original Equipment Manufacturers (OEM) and the US Government. We have earned the business and respect of customers worldwide by providing fast accurate service from our manufacturing facilities in the USA, Canada, Germany, England and New Zealand. Distribution is provided through over 2000 factory approved authorized distributors worldwide. EncapSulite is customer friendly. Our e-mail, fax machines and voice mail are always ready to take your orders, comments and suggestions twenty four hours per day seven days per week. Our customer service department is at your service 8 am to 5 pm CST. Visit our website at **www.encapsulite.com**.

EncapSulite's Customer Commitment

EncapSulite is committed to the development, manufacturing, and distribution of the highest quality products. We value our commitment to service before and after the sale and will always strive to do the job right the first time. We will continually listen and understand our customer's needs, and will never be knowingly undersold on any product of equal performance.

WaterGuard® LED HO

WATERTIGHT LED HIGH-OUTPUT LIGHTING

EncapSulite **WaterGuard LED HO** wash-down fixtures are ideal for a wide variety of applications including inspection lighting, food processing, dairies, poultry plants, meat processing, seacoast areas, car washes and parking garages. **WaterGuard** fixtures hold up to 1200psi high pressure wash-down while not collecting debris or water. Each fixture is equipped with stainless steel mounting hardware and power cord for easy installation. Teflon™ protection available for extreme conditions. All **WaterGuard** fixtures are UL, UL-EPH, and NSF certified for food safety.

FEATURES

- Tubular Design – Low Maintenance
- 50,000hr Long-life LED's
- 5000K (other Kelvin temps available)
- Multi-Voltage 120-277V 50/60Hz
- Limited 3 Year Warranty
- IP67, 1200PSI Wash-Down
- UL1598, UL8750, NSF, FDA, USDA

APPLICATIONS

- Inspection Lighting
- Food Processing
- Dairies
- Grocery Stores
- Poultry Plants
- Meat Processing
- Car Washes

WARRANTY: EncapSulite WaterGuard LED HO watertight fixtures are guaranteed for 3 years.

UltraGuard®

SHATTER RESISTANT LED LIGHTING

EncapSulite shatter resistant lamps deliver superior protection against accidental lamp breakage. **UltraGuard Telfon™** shatter resistant lamps are available in T5 and T8 LED and suitable for incidental food contact in federally inspected food, meat and poultry plants. **UltraGuard** is the only coating that can resist powerful UV emissions and caustic cleaners while not yellowing and breaking apart. A perfect solution for Long-Life Fluorescent Lamps, EncapSulite shatter resistant coatings are UL recognized for safety and UL-EPH certified for environmental and public health.

FEATURES

- Contains Glass in Case of Breakage
- Designed for Long-Life Lamps (LED)
- T5 and T8 LED Lamp Models
- Color Temperatures: 3500K, 4000K & 5000K
- Lumen Output: 1600 - 3500lm
- Ballast Bypass & Ballast Compatible

APPLICATIONS

- Food Processing
- Bakeries
- Dairies
- Grocery Stores
- Poultry Plants
- Pharmaceutical

WARRANTY: EncapSulite International's UltraGuard Telfon™ shatter resistant coating is guaranteed for the published rated life of the lamp as listed on the lamp manufacturer's website or lamp catalog.

COATING ONLY PRICING AVAILABLE FOR CUSTOMER SUPPLIED LAMPS UPON REQUEST.

EncapSulite® International Inc. takes great pride in being the ONLY safety coater in the United States able to provide a coating that is both UL Recognized for Safety and UL-EPH Certified for Food Applications. The UL-EPH certification and the UL Recognized component recognition for the coating insure that we are in compliance with all FDA, USDA and OSHA requirements.

UltraGuard[®]

SHATTER RESISTANT LIGHTING

EncapSulite shatter resistant lamps deliver superior protection against accidental lamp breakage. **UltraGuard** Teflon™ shatter resistant lamps are suitable for incidental food contact in federally inspected food, meat and poultry plants. **UltraGuard** is the only coating that can resist powerful UV emissions, high heat of T5HO lamps, long life T8 lamps, and caustic cleaners while not yellowing and breaking apart. A perfect solution for long-life LED T8s, fluorescent lamps, Germicidal and Black Light lamps. EncapSulite shatter resistant coatings are UL recognized for safety and UL-EPH certified for environmental and public health.

FEATURES

- Contains Glass in Case of Breakage
- Designed for Long-life Lamps
- Designed for Open or Closed Fixtures
- UL Recognized for Safety
- UL-EPH Certified / NSF Rated
- For Use in Ambient Temps < 400°F
- Transmits UV Emissions

APPLICATIONS

- Food Processing
- Bakeries
- Dairies
- Grocery Stores
- Poultry Plants
- Bug Zappers
- HVAC - Germicidal

WARRANTY: EncapSulite International's UltraGuard Teflon™ shatter resistant coating is guaranteed for the published rated life of the lamp as listed on the lamp manufacturers website or lamp catalog.

COATING ONLY PRICING AVAILABLE FOR CUSTOMER SUPPLIED LAMPS UPON REQUEST.

ProGuard[®]

SHATTER RESISTANT LIGHTING

EncapSulite shatter resistant lamps deliver superior protection against accidental lamp breakage. **ProGuard** PC shatter resistant lamps are suitable for incidental food contact in federally inspected food, meat and poultry plants. **ProGuard** PC is specially formulated to block 95% of harmful UV rays emitted from fluorescent lamps. A perfect solution for standard linear T8 and T12 fluorescent lamps. EncapSulite shatter resistant coatings are UL recognized for safety and UL-EPH certified for environmental and public health.

FEATURES

- Contains Glass in Case of Breakage
- Designed for Standard Life Lamps
- Designed for Open Fixtures
- UL Recognized for Safety
- UL-EPH Certified / NSF Rated
- For Use in Ambient Temps < 135°F
- Blocks UV Emissions Below 380nm

APPLICATIONS

- Hospitals
- Deli Cases
- Schools
- Grocery Stores
- Restaurants
- Cafeterias
- Pharmaceutical Operations

WARRANTY: EncapSulite International's ProGuard PC shatter resistant coating is guaranteed for one year from the date of sale.

COATING ONLY PRICING AVAILABLE FOR CUSTOMER SUPPLIED LAMPS UPON REQUEST.

Safety Coated Fluorescent Lamps

Certifications

Encapsulite® Safety Coatings Comparison Chart

ULTRAGUARD	PROGUARD
DuPont FEP	Polycarbonate PC
Designed for T5, T5HO, T8 & T12 lamp types	Designed for standard T8 and T12 lamp types
Designed for Long Life Lamps in excess of 40,000 hours	Designed for lamps 24,000 hours or less
For use in open or closed fixtures including vapor or water proof fixtures	For use in open fixtures
Max ambient temperature is 400°F	Max Ambient temperature is 135°F
Excellent Chemical Resistance	Good Chemical Resistance (no ammonia or solvents)
Transmits UV Emissions	Blocks UV emissions (100-380nm)
UL recognized for Safety	UL recognized for Safety
UL EPH certified (Environmental and Public Health)	UL EPH certified (Environmental and Public Health)
Coating Warranty: Average Rated Life of Lamp	Coating Warranty: 1-Year

EncapSulite International's shatterproof safety coating is the leader in the lighting industry. The only safety coating UL Recognized for Safety and UL-EPH certified for environmental and public health. EncapSulite safety coated fluorescent lamps are acceptable for incidental food contact in federally inspected food, meat and poultry plants. The chemical constituents of the product and surface characteristics of the EncapSulite Safety Coatings are in compliance and meet current FDA, USDA and OSHA standards.

APPLICATIONS

Food processing areas, dairies, manufacturing areas, hospitals, bakeries, schools, gymnasiums, cafeterias, restaurants, poultry plants, and slaughter houses.

LOW COST - QUALITY PROTECTION

The design of the lamp requires no assembly and allows fast easy installation. The durable smooth coating is easy to clean with nothing more than a damp cloth. EncapSulite lamps are available in all lengths, T5 (5/8 inch), T6 (3/4 inch), T8 (1 inch), T10 (1-1/4 inch) and T12 (1-1/2 inch) diameters.

WE DELIVER

EncapSulite is committed to providing you with SOLUTIONS to your lighting requirements. EncapSulite products are problem solvers. You can be assured that EncapSulite will guarantee you fast, accurate delivery of your shatterproof fluorescent lamps.

COMPLIANCE DOCUMENTATION / LOW MERCURY CONTENT LAMPS / SAFETY & DISPOSAL OF ENCAPSULITE POLYMER SAFETY COATED LINEAR FLUORESCENT LAMPS

EncapSulite's linear fluorescent safety coatings are both UL Recognized & UL-EPH Certified: UL Recognized Safety Coating (UL File No. SA10645) - Safety and UL - EPH / Certification (UL File No. SA12675) - Food Applications

If in the rare case that an EncapSulite safety coated lamp is broken, virtually all of the glass, mercury and phosphors are contained inside the high temperature, high mechanical strength EncapSulite coating. Employees, products and manufacturing sites are totally protected. Disposal or recycling is safe and easy.

If an unprotected lamp is broken during maintenance, lamp changes or accidentally, your employees, food products and equipment can be exposed to broken glass, phosphors and mercury. Disposal of broken glass requires the handling of unprotected glass shards and other chemicals.

The EncapSulite ProGuard Coating also offers the additional benefit of blocking all UV transmission between 100 and 380 nanometers.

LLD - Lamp Lumen Depreciation - The unique EncapSulite polymer safety coatings reduce light (lumen) output by approximately 1% when compared to an uncoated lamp.

EncapSulite purchases all of our linear fluorescent lamps from major NEMA manufacturers. The mercury content of the lamps that we safety coat has been reported and is on file with IMERC Interstate Mercury Education & Reduction Clearinghouse.

EncapSulite's Safety Coatings are in compliance with all FDA - USDA - OSHA regulations and the following regulations.

SANITATION REQUIREMENTS FOR MEAT AND POULTRY ESTABLISHMENTS CHAPTER 5. SECTION 1 - USDA

USDA - "Lighting fixtures in rooms where exposed meat or poultry is handled should ensure maximum safety, to preclude contamination of products with broken glass and prevent collection of dirt, product and debris on lamp surfaces"

FDA PLANT CONSTRUCTION AND DESIGN - 110.20 SECTION B. PART 5

FDA - Food Processing - "provide safety-type light bulbs, fixtures, skylights, or other glass suspended over exposed food in any step of preparation or otherwise protect against food contamination in case of glass breakage."

FDA FOOD CODE - CHAPTER 6. SECTION 202.11

FDA - Food Service - "shielding of light bulbs helps prevent breakage. Light bulbs that are shielded, coated or otherwise shatter-resistant are necessary to protect exposed food, clean equipment, utensils and linens, and unwrapped single-use articles from glass fragments should the bulb break."

OSHA HAZARD BULLETIN - 19970715

OSHA - Potential Fire Hazard with Fluorescent Light Bulbs with Plastic Tubes - "replace fluorescent light bulbs that were equipped with protective sleeve coverings and end caps with a shatterproof bulb that is easier to install, in order to eliminate this potential fire hazard."

ENCAPSULITE INTERNATIONAL INC. UNDERWRITERS LABORATORIES INC. - PHONE NUMBER (408) 985-2400 UL FILE NO. - SA10645 - UL FILE NO. - SA12675

Product Covered: Component - "Miscellaneous Refrigeration Equipment: Fluorescent Lamp Tubing, Series Shatterproof ShardGuard Coating, also, shatterproof coating."

General Description of Material: "These plastic tubing's are safety-coated over fluorescent lamps in order to prevent the release of glass shards in case of impact. It is intended for indoor use only.

Material Modifications: "There shall be no changes in the formulation or composition of the material unless previously cleared through Underwriters Laboratories Inc,"

Product: "Shatterproof Safety Coating and Shatter-Proof Coating are identical."

UL Marking: Recognized Company name, File No.SA10645, or trademark "ENCAPSULITE" and product designation on shipping carton or finished product.

UL Marking: UL EPH Classified "NSF Criteria C-2 or FDA Food Code, Chapter 4.

Engineering Considerations - (1) The product is identified in accordance with Marking given above. (2) The lamp tubing was evaluated for UL 94HB flammability test. Samples of the plastic tubing installed onto fluorescent lamp were subjected to this test. (3) The lamp tubing was subjected to a 0.75 ft-lb impact test per UL 471 - Eighth Edition. Paragraph 21.4.

The engineer must consider need to investigate the part for other than flammability and impact such as electrical or mechanical properties, in accordance with applicable UL end-product standard or requirements outlined in the Standard for Polymeric Materials - Use in Electrical Equipment Evaluations. UL 746C.

EncapSulite® International Inc. takes great pride in being the ONLY safety coater in the United States able to provide a coating that is both UL Recognized for Safety and UL-EPH Certified for Food Applications. The UL-EPH certification and the UL Recognized component recognition for the coating insure that we are in compliance with all FDA, USDA and OSHA requirements.

ShardGuard®

SHATTER RESISTANT LIGHTING

EncapSulite offers the highest quality, optically clear high temperature PTFE safety coating for use with HID, HPS, PAR 38 and Flood Lamps. Large selection for all applications. EncapSulite **ShardGuard** Shatter Resistant PTFE coated lamps are acceptable for incidental food contact in federally inspected meat and poultry plants. **ShardGuard** lamps comply and meet current FDA, USDA and OSHA standards. EncapSulite PTFE safety coating is designed not to crack or peel when used in normal operating conditions.

FEATURES

- Contains Glass in Case of Breakage
- Designed for Open or Closed Fixtures
- Teflon™ Coated
- NSF Rated

APPLICATIONS

- Warehouses
- Parking Lots
- Food Processing Plants
- School Gymnasium
- High Bay Lighting Applications

WARRANTY: EncapSulite International's ShardGuard shatter resistant coating is guaranteed for one year from the date of sale.

Shatterproof Gold Semiconductor

GOLD SAFETY COATED FLUORESCENT LAMPS

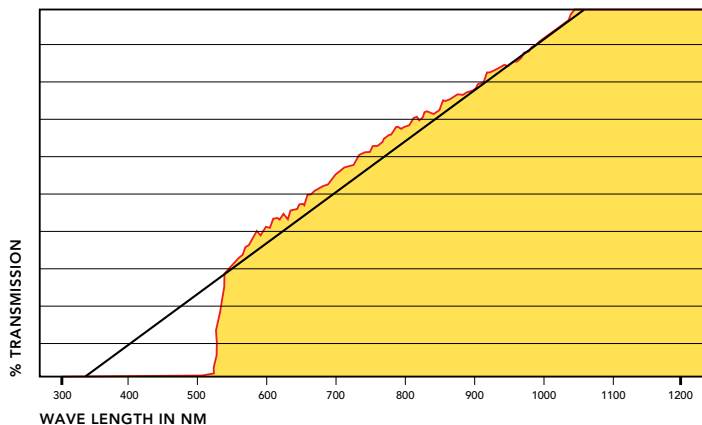

EncapSulite has developed gold safety coated fluorescent lamps specifically designed for the semiconductor manufacturing industry. The gold safety coated lamps provide a low cost - high efficiency bulb with the ability to block UV emissions below 520 nanometers. The gold coating is enhanced for industrial strength to contain glass fragments in the event of breakage and passes the UL94HB flammability test.

Semiconductor Gold Lamps offer maximum safe illuminations and will not crack, peel or flake with age.

Available in T5, T8 and T12 diameters, EncapSulite's UL Recognized fluorescent gold lamps are recommended for semiconductor manufacturing facilities worldwide.

Graphic Arts **SafeLights**

SAFELIGHT FILTERS

EncapSulite **SafeLights** produce shadow-free, long-life UV filters that are specially designed to match the color sensitivity of photographic products.

SafeLight LED filters provide maximum safe illumination and industrial strength for an optimal working environment.

FEATURES

- Maximum Safe Illumination
- UV Blocking LED Sleeves
- SafeLight LED Fixtures
- Laminated Panel Filters
- Window Filter Rolls

APPLICATIONS

- Darkrooms
- X-RAY/Medical
- Film Processing
- Clean Room Lighting
- Semi-Conductor Lighting

SafeLight LED Sleeves

Polycarbonate safety sleeves designed for use with long life LED lamps, direct series fluorescent ballast compatible. Includes shield, filter and safety end caps. Only available in T8 LED lamp models.

Terms & Conditions of Sale

WARRANTY

EncapSulite® Safety Lighting Products are warranted against defects in materials and workmanship. This warranty does not include transportation or handling costs.

This warranty does not apply if the merchandise has been damaged by accident, misuse, application beyond that stated, or as a result of service by other than EncapSulite International. No other warranty is expressed or implied. EncapSulite International is not liable for consequential damage.

TERMS OF PAYMENT

All accounts are due NET 30 days from the date of invoice. EncapSulite International reserves the right to withhold shipments if the buyer fails to comply with credit policies. EncapSulite International accepts: MasterCard, Visa & American Express.

PRICING POLICIES

EncapSulite International's published price lists are suggested prices only. All prices are subject to change without notice. Actual prices are determined by the authorized EncapSulite International distributor.

ENCAPSULITE RETURN POLICY

Custom manufactured items are non-returnable unless defective in quality or workmanship. Call or fax our customer service department for a RGA - Return Goods Authorization - within 30 days of receipt of merchandise. Delisted or discontinued items may not be returned for credit. Products returned that were shipped correctly will be credited at invoice value less a 20% restocking charge and all freight charges.

CLAIMS

Upon acceptance by the carrier, title to material passes to consignee. All claims for loss or breakage, concealed or otherwise, for shipments accepted by consignee must be against the carrier by the consignee. EncapSulite International Inc. will handle claims of damaged shipments refused by consignee.

ADDITIONAL INFORMATION

For additional terms, conditions and information, contact the factory or your EncapSulite distributor.

Visit our website at www.encapsulite.com.
